# Welcome

CoLaz Advanced Aesthetics Clinic has been established for over 15 years, so you can trust us. CoLaz is the perfect place to attend all your skin needs, from laser hair removal, advanced aesthetic treatments and skin care, we've got you covered.

At Colaz, we pride ourselves on providing a safe and trustworthy environment for our clients. We believe that everyone deserves to feel sexy, smooth & confident, which is why we offer our services at surprisingly affordable prices.

Whether you're looking for a quick fix or a long-term solution, CoLaz is the answer.

# HAIR REMOVAL TREATMENTS

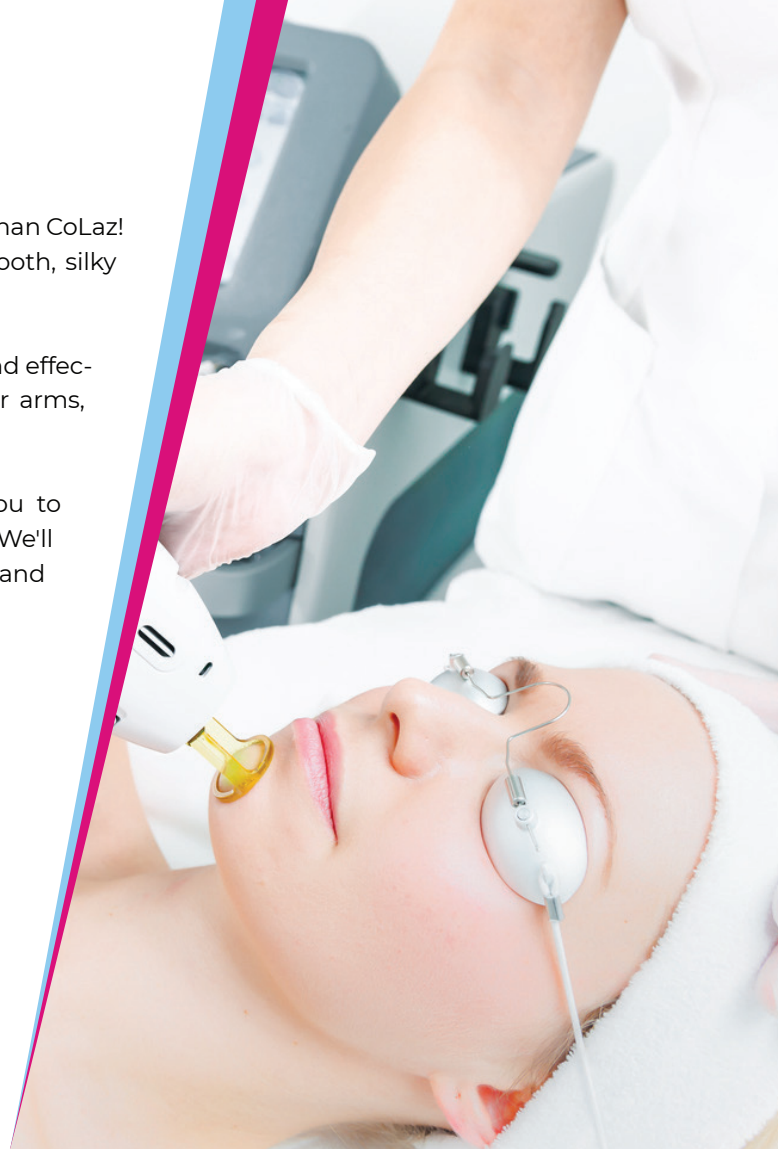

# Laser Hair **Removal**

Looking for a way to get rid of unwanted hair? Look no further than CoLaz! With our laser hair removal services, you can achieve the smooth, silky skin you've always wanted.

At CoLaz, we use the latest in laser technology to deliver safe and effective results. Whether you're looking to remove hair from your arms, legs, or any other area of your body, we can help.

Our highly trained and experienced team will work with you to customize a treatment plan that meets your individual needs. We'll make sure you're comfortable throughout the entire process, and we'll work hard to ensure you're happy with your results.

Prices start as low as £20 per treatment.  
For a customized quote book your free consultation in today!

# Electrolysis Hair Removal

Electrolysis treatment is excellent for very fine hair, grey and the odd thick coarse hair. With the use of an advanced electrolysis machine, you can experience 100% permanent hair removal.

This trusted method works on all skin types and hair colours. It is the most efficient method for the removal of grey, blonde and fine hair.

Fact: It is the only FDA-approved permanent hair removal treatment

TREATMENT	PRICE
Up to 5 Minutes	£10
Up to 15 Minutes	£27
Up to 30 Minutes	£48
Up to 60 Minutes	£94
Up to 120 Minutes	£180
Up to 240 Minutes	£350
Up to 300 Minutes	£420
Up to 480 Minutes	£625
Up to 600 Minutes	£700

# Dermaplaning

Dermaplaning is a safe and effective way to exfoliate the skin, remove vellus hair (peach fuzz), and promote cell turnover. This treatment can be performed on all skin types and is gentle enough for even the most sensitive skin.

Regular dermaplaning treatments can help to improve the overall appearance of your skin leaving it brighter and smoother.

Dermaplaning also is a wonderful add on treatment procedure to prep the skin before treatments such as peels, laser hair removal & hydrafacial so you can enhance your results.

TREATMENT	PER TREATMENT	3 TREATMENT	6 TREATMENT
Full Face	£65	£175	£315

# Recommendation

## Unsure what treatment you would like to go for?

We suggest laser hair removal for all skin types who have black to dark brown hair.

For clients who have blond, grey and white hairs then electrolysis would be more suitable. We have several clients who combine laser hair removal to treat the darker hairs and then under go electrolysis for the odd grey and white hairs.

If you have peach fuzz hair/ vellus facial hairs then dermaplaning is recommended. You can also combine dermaplaning with face laser hair removal. Excellent choice for clients who do not like shaving.

# CoLaz Serving The Community

# **INCH LOSS** TREATMENTS

# Fat Freezing Treatment

The CoLaz Fat Freeze is a revolutionary, non-surgical fat reduction procedure that eliminates fat cells by using cold temperature. The fat cells are crystallize thus permanently removing fat deposits in certain areas of the body.

This is a great option areas of fat that can not be shaped by diet or exercise alone, such as;

- ✔ Love handles
- ✔ Bra bulges
- ✔ Belly fat
- ✔ Thighs

The long-term results will leave you feeling more confident and looking great!

TREATMENT	PRICE
Any Single Area	£159
3 Treatments – 1 Area	£299
3 Treatments – 2 Areas	£498
3 Treatments – 4 Areas	£867

# Electrolipolysis Inch Loss

Looking to tone up and reshape?

Our Electrolipolysis Inch Loss treatment is exactly what you need to help you achieve your goals. This treatment works by targeting specific areas of fat with electrical currents & cavitation build in, which breaks down the fat cells at the same time reshaping your body.

This process is completely safe and effective, and best of all – it really works! In just a few short sessions, you'll start to see noticeable results.

TREATMENT	PRICE
Per Treatment	£70
6 Treatments	£380
8 Treatments	£450
12 Treatments	£600
18 Treatments	£792
24 Treatments	£840

# Ultrasound Cavitation

Ultrasound cavitation is a fat emulsification approach to fat loss. The method works by converting fat cells into a substance that is eliminated through the body's own natural lymphatic filtration system.

- ✓ Reduces cellulite appearance
- ✓ Achieves more lifted and firmer skin
- ✓ Reduction of targeted area
- ✓ Leaving you more sculpted and contoured body shape

TREATMENT	PER TREATMENT	6 TREATMENT	8 TREATMENT	12 TREATMENT
Stomach	£149	£594	£740	£999
Love Handles	£149	£594	£740	£999
Inner Thighs(Upper)	£149	£594	£740	£999
Outer Thighs(Upper)	£149	£594	£740	£999
Bingo wings	£149	£594	£740	£999

# Non Surgical Brazilian Bum lift

This non-invasive alternative to surgery will give you tighter, lifted and contoured buttocks. A combination of Ultrasound Cavitation, Six Polar RF and Vacuum Radio Frequency treatments are procedures to improve the firmness and the better contouring of the buttocks, while also creating toned smooth skin.

TREATMENT	PRICE
Per Treatment	£300
3 Treatment	£720
6 Treatment	£1,200

- ✓ Available only at Ealing, Reading and Derby
- ✓ Course of 6 recommend

# Fat Dissolving **injections**

Aqualyx therapy is a fat-dissolving injection that liquefies and destroys fat cells permanently. The lymphatic system then eliminates the broken-down cells naturally.

Aqualyx fat dissolving injections are a fantastic option for individuals wanting to target areas on their body with persistent, small, localized fat areas such as;

• Double Chin • Bra fat • Love handles • Flanks & waist • Gynecomastia – man boobs

Please keep in mind that Aqualyx® fat dissolving injection is a body contouring therapy and not a weight loss treatment.

Our Aqualyx® treatments are only performed by GMC / NMC Registered Doctors & Nurses

Only available at limited clinic locations – Ealing, Harrow and Reading

TREATMENT	PER TREATMENT	COURSE OF 2	COURSE OF 4	COURSE OF 8
Consultation Fee	£25			
Chin	£400	£680	£999	£1,500
Love Handle	£550	£867	£1,275	£1,800
Lower Abdomen	£550	£867	£1,275	£1,800
Upper Andomen	£550	£867	£1,275	£1,800
Inner thighs	£550	£867	£1,275	£1,800
Outer thighs	£550	£867	£1,275	£1,800
Male breast (Man boobs)	£550	£867	£1,275	£1,800

Consultation fee is redeemable against treatment otherwise non refundable

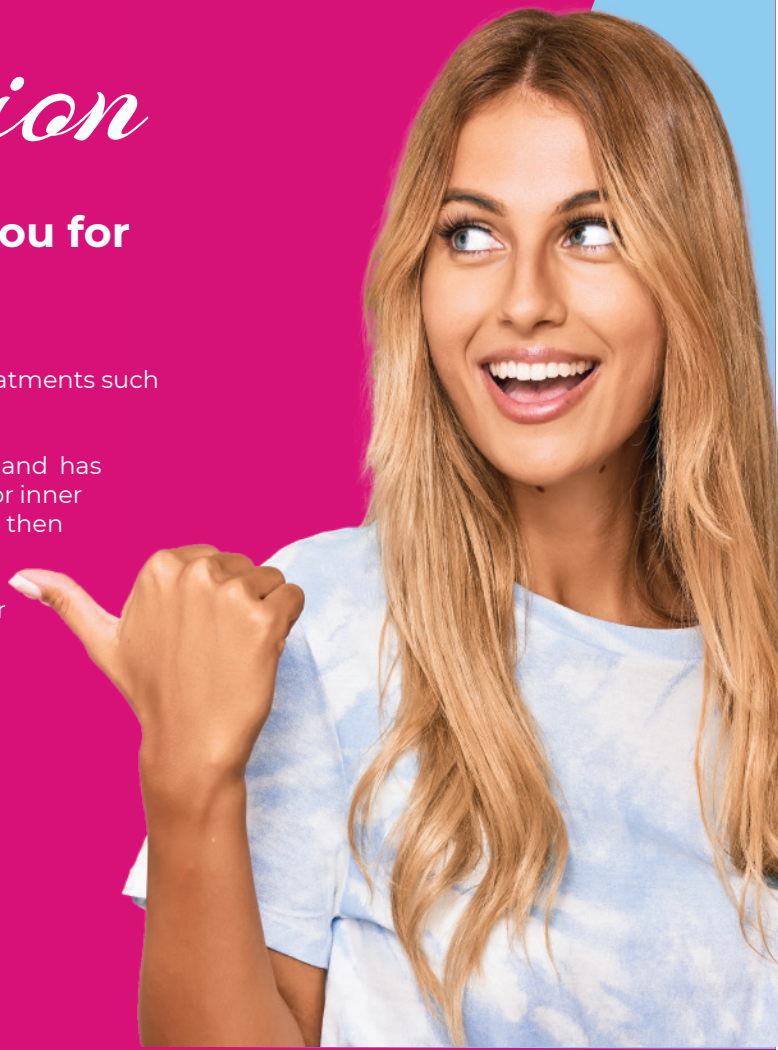

# Recommendation

## Unsure what treatment will suit you for inch loss and body reshaping?

To get optimal results we recommend combining inch loss treatments such as Fat freeze with electrolipolysis and cavitation.

Aqualyx is suitable for someone close to their body weight and has small localised fat areas such as chin, man boobs, love handles or inner thighs. Once you have completed aqualyx treatment this can then be followed up by cavitation or radio frequency.

Please note none of our treatments are intended to be for weight loss

# Diamond Microdermabrasion

A Diamond Peel Microdermabrasion is a facial treatment that uses synthetic diamond chips to gently slough off dead skin cells and vacuum them away. Benefits;

- ✓ Removes dead skin cells
- ✓ Reduces large pores
- ✓ Excellent for dull, flaky and dry skin
- ✓ Helps to unclog pores while remove blackheads and whiteheads
- ✓ Improves acne scarring and blemishes
- ✓ Helps to brighten your complexion and give your skin a more youthful appearance.

Mini Back Shine Microdermabrasion (30 mins)	£40	£190

# LED Light Therapy

LED light therapy is a certified treatment effective for many dermatological conditions. It is painless and gentle on all skin types.

## Red LED Light Therapy for Skin Regeneration

This kind of phototherapy stimulates the skin cells. The resulting stimulation of collagen and elastin helps diminish fine lines, enhance skin texture, and alleviate spots and imperfections. Red light is also used, in addition to blue light, to improve healing in acne treatments.

## Blue LED Light Therapy for Acne Treatment

Blue Light Therapy is a powerful treatment for acne. The blue light helps reduce acne by killing the *Propionibacterium* bacteria that causes acne breakouts. Over a short period of three months, acne is usually reduced significantly.

Recommend to do treatment 2-3 times a week

£699

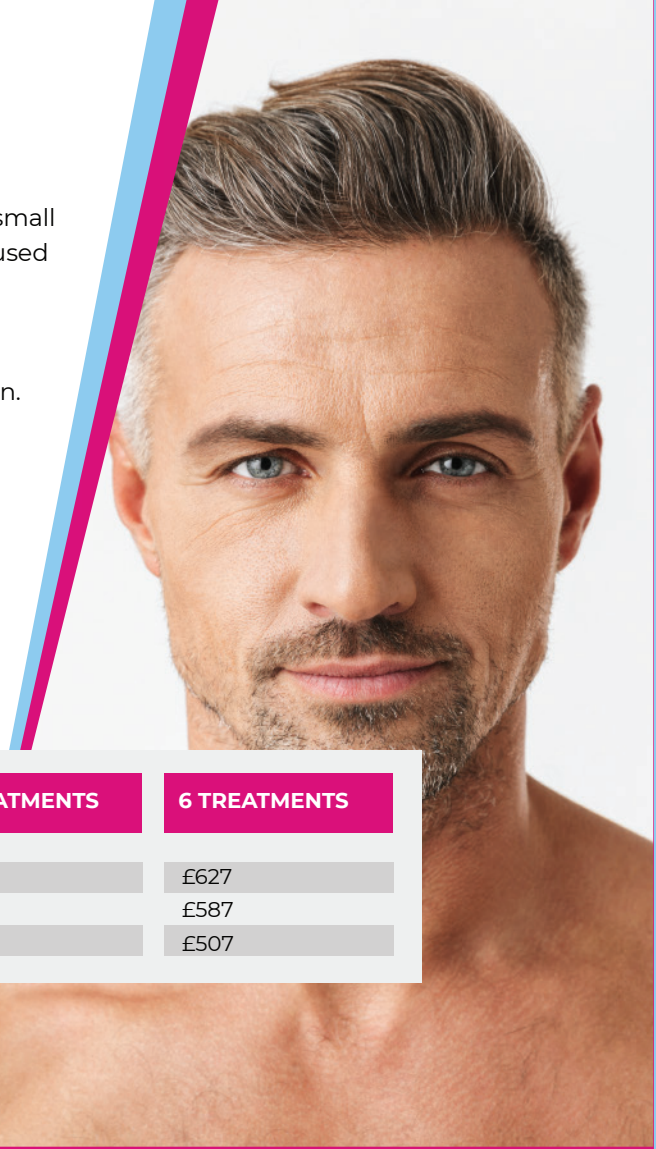

# Mesotherapy

Mesotherapy is a cosmetic treatment that uses a series of injections of small amounts of vitamins and other medical solutions into the skin. It can be used to treat a variety of skin concerns, such as wrinkles, fine lines, acne, and pigmentation.

The technique involves using a lot of injections that go into your skin. They're not painful and use ingredients that are good for your skin.

The effects of the treatment are almost immediate. However, if you are treating specific skin conditions such as acne or pigmentation, then you will need to complete a course of treatments.

Mesotherapy is a popular treatment option because it doesn't require a lot of downtimes. This means that people who are busy can improve their appearance without having to take time off from work.

TREATMENT	PER TREATMENT	4 TREATMENTS	6 TREATMENTS
Mesotherapy with peel	£150	£450	£627
Mesotherapy with mild microdermabrasion	£140	£420	£587
Mesotherapy with facial scrub	£120	£360	£507

# IPL Skin Rejuvenation

IPL skin rejuvenation from CoLaz is a quick and easy way to achieve a more youthful appearance. This revolutionary treatment uses intense pulsed light to gently stimulate collagen production, giving your skin a firmer, more youthful appearance.

IPL skin rejuvenation is perfect for those who are looking for a non-invasive way to improve the appearance of fine lines, wrinkles, and sun damage. The best part is that there is no downtime required—you can return to your normal activities immediately after the treatment!

# *Recommendation*

No two people have the same skin, so what works for one person might not work for another. We offer a range of treatments to suit different people's needs, and to get the best treatment plan for you; we recommend booking a consultation. The clinician will analyse your skin and tailor a treatment plan tailored specifically for you.

Different treatments can help with various skin care needs. You may need a combination of treatments or one treatment that will work best for you.

AGEING IS A  
**FACT OF LIFE.**  
LOOKING YOUR  
**AGE IS NOT**

# **SKIN CHEMICAL** PEELS

# Chemical **Skin Peels**

Chemical peels are used to improve the appearance of your face's skin by removing its damaged outer layers with a chemical exfoliation that causes dead cells to turnover, revealing fresh and healthy cells beneath.

How do chemical peels work?

Chemical peels often include Alpha hydroxy acids (AHA), naturally occurring chemicals produced by fruits and vegetables.. They exfoliate the skin by removing superficial layers of the surface. AHA treatments are beneficial for uneven skin tone, scarring, hyperpigmentation, rejuvenation and acne scars.

Beta hydroxy acid (BHA) is a form of salicylic acid that has been deprived of its acidity from willow tree bark. The purpose of BHA is to dissolve the oil, dirt, and debris trapped within the skin's pores. This makes BHA helpful in treating acne and other skin problems because it works to loosen the skin's surface layers.

What are the benefits?

- ✓ Improves congested skin
- ✓ Helps to even out skin texture and tone
- ✓ Give skin a brighter complexion
- ✓ Helps to reduce inflammation and acne breakouts
- ✓ Can help to promote collagen production to reduce scars appearance
- ✓ Softening fine lines and wrinkles
- ✓ Lessening hyperpigmentation
- ✓ Hydrates the skin
- ✓ Helping to clear up certain types of hyper-keratosis. (build-up of dead cells in the skin) and much more.

If you have any skin concerns, a chemical peel from CoLaz can help boost your skin's health!

# Chemical **Skin Peels**

## AHA /BHA

TREATMENT	PER TREATMENT	6 TREATMENTS

BHA Peel	£99	£499

# Epionce Skin Peels

Epionce was created by **Dr Carl Thornfeldt**, a practising dermatologist with over 30 years of expertise. He developed Epionce, a series of products including the peels, and has a unique concept, that his treatments should be capable of :

- ✓ Repairing the external skin barrier
- ✓ Calm chronic inflammation in the skin
- ✓ Smoothes the skin without harsh exfoliation
- ✓ Product delivery without irritation

## Epionce Lite Refresh Peel

The Epionce® Lite Refresh peel targets the natural potential of your skin. It is an excellent treatment for many skin problems, including acne, post-acne discoloration, rosacea, overly red skin, and sensitive skin since it increases its natural barrier response.

The Lite refresh peel includes a powerful combination of Malic acid, Salicylic acid, Willow Bark Extract and Onion Bulb Extract that work together to target all layers of the skin for visible improvement. Malic acid encourages cell turnover, hydration and reduces bacteria. Salicylic acid has antibacterial and anti-inflammatory properties.

Suitable for all skin types and excellent for a refresher of the skin leaving it glowing

## Epionce Corrective Peel

The corrective peel is more advanced than the Lite refresh peel. This peel can be varied in strength and intensity, allowing you to tailor it to your specific requirements. Improves skin ageing, hyperpigmentation, acne, and rosacea are all helped by this peel—a two-step acid peel system using 28% Salicylic Acid and 50% Malic Acid.

This powerful combination of Malic acid, Salicylic acid, with additional Willow Bark Extract, and Onion Bulb Extract helps target all skin layers for visible improvement. Malic acid promotes cell turnover, moisture retention, and bacterial reduction. Salicylic acid has antibacterial and anti-inflammatory properties.

The corrective peel is suitable for skin types 1-5.

*If you have any skin concerns, a chemical peel from CoLaz can help boost your skin's health! Prices for all peels*

# Epionce Peel Prices

TREATMENT	PER TREATMENT	6 TREATMENTS
Lite Refresh Peel	£99	£499
Corrective Peel	£120	£540

Please note for corrective peel you will have to prep at home for 2 weeks with home care products.

# Cosmelan Depigmentation Peel

Cosmelan is perhaps the most powerful skin whitening therapy available compared to other depigmentation treatments currently possible on the market. Studies have shown it can reduce pigmentation by 90-95% on the skin. It is a topical skin lightening therapy that targets dark spots and patches. Its unique formulation was developed to provide optimum performance while maintaining tolerance.

The Cosmelan technique works on cells that produce melanin, preventing melanin production in pigmented regions, eliminating unsightly blemishes and marks.

## It can treat the following:

- ✓ Sun damage caused by UV rays
- ✓ Freckles, lentigo or nevus
- ✓ Hyperpigmentation of skin
- ✓ Post-inflammatory pigmentation caused by acne
- ✓ Melasma caused by pregnancy
- ✓ Contraceptive pills – can cause hyperpigmentation
- ✓ Scars

The price includes the pre-peel kit and in-salon peel and one set of post-care products plus one cosmelan II peel for after use

Cosmelan Depigmentation Peel

## PRICE

£1,197

# Acnelan (Acne Treatment)

Acnelan Peel is a dermatologist-tested, clinically proven technique for treating and preventing acne.

This intensive medical treatment, specially formulated for acne-prone and seborrheic skin, aims to deeply cleanse the pores, remove impurities from the skin, and promote improved skin texture by utilising a combination of strong, active chemicals.

## ADVANTAGES

- ✓ Decrease in sebum production: this slows down the secretory activity of sebaceous glands.
- ✓ Control of bacterial proliferation: this inhibits the growth and reproduction of the strains making up the skin flora, which may infect blocked pilosebaceous canals.
- ✓ Less redness and epidermal swelling: this reduces and soothes the intensity of the inflammatory process of acne outbreaks.
- ✓ Lightening of post-acne hyperpigmentation: this improves the appearance of hyperpigmented areas of skin after an acne outbreak.

# Recommendation

**Not sure what treatment will be the best for you?  
Check out these recommendations:**

**Pigmentation:** Cosmelan is a top treatment to eliminate all types of pigmentation. You will need to commit to the treatment plan for 12 months and buy the recommended products for the best results.

Unable to commit for 12 months, not to worry, we have our Epionce correct peel that works excellent for pigmentation, acne, blemishes and much more.

If you want to brighten your skin, leaving it refreshed and glowing, then Epionce Lite Refresh is your choice.

If you are worried about acne, then Acelan is our medical graded acne treatment plan carried out by medical professionals only.

Most of our clients need a combination of treatments to meet their specific skin care needs. Please make an appointment today so we can recommend the best treatment plan for you.

# **NON- SURGICAL** TREATMENTS

# Platelet Rich Plasma Treatment

Platelet Rich Plasma therapy, also known as PRP or Vampire Facial, is a relatively new skin rejuvenation technique. This treatment uses your blood plasma to stimulate healthy tissue growth and healing at the cellular level.

PRP therapy is used on any part of the body; however, it has been the most popular treatment for facial rejuvenation and hair loss. It improves skin texture and tone, regenerates collagen, helps reduce fine lines and wrinkles, tackles blemishes, improves scarring, and restore a more youthful glow.

What is PRP?

PRP is an advanced cutting-edge technology that uses the patient's blood, spun in a centrifuge, leaving plasma rich in platelets. The concentrated platelets contain growth factors that are vital to initiate tissue repair and regeneration. These growth factors present in the alpha granules of platelets play a vital part in new tissue regeneration and collagen production. There are many types of growth factors present in platelets, but the three key ones used in skin and hair rejuvenation are:

## **EGF** **(Epidermal growth factor)**

helps stimulate new cell growth, new collagen and elastin fibres to improve the skin texture and elasticity. EGF plays a vital role in tissue repair.

## **VEGF** **(Vascular endothelial growth factor)**

is a signalling protein that helps grow new blood vessels and helps restore blood supply to cells and tissues.

## **PDGF** **(Platelet-derived growth factor)**

This helps with healing, repair and stimulates the growth of its target cells and proliferation.

## **How Does Platelet Rich Plasma (PRP) Work On The Face?**

When PRP is injected into the skin, it causes a mild inflammation that triggers the healing cascade. The platelets release enzymes that aid in the healing process further, the cell respond by delivering stem cells and growth factors to mend the damaged area. As a result, new collagen is formed. Collagen matures as it shrinks, producing a tight and strengthened effect in the injured area. The tissue is remodelled to a more healthy and younger condition when treating injured, sun-exposed, or aged tissue. PRP therapy is a relatively quick process and requires minimal downtime.

# Platelet Rich Plasma Treatment

## Benefits:

- ✓ Skin Rejuvenation
- ✓ Improved skin texture & tone
- ✓ Increase in skin thickness & vitality
- ✓ Reduced fine lines & wrinkles
- ✓ Helps with reduction of scars & blemishes i.e acne scars
- ✓ Helps with reduction of dark circles around eyes
- ✓ Restores youthfulness to the skin
- ✓ Hydration

Treatments are carried out by qualified Doctors, Nurses & Therapist.

Prices vary according to delivery method – see website for more details or speak to your clinician in clinic.

# Platelet Rich Plasma For Hair Loss(PRP)

Platelet-rich plasma, also known as PRP, is an advanced cutting-edge technology that uses the patient's blood to spin in a centrifuge, leaving plasma rich in platelets. The concentrated platelets contain growth factors vital to initiating tissue repair and cell regeneration.

PRP injections can help promote thicker, fuller-looking hair and encourage new hair to grow where there was little hope before! The results are long-lasting and natural-looking, making PRP a great choice for those seeking to improve their appearance.

## Benefits

- ✓ Hair quality, volume, density, and fullness are all improved.
- ✓ It naturally promotes hair growth.
- ✓ Endowment stimulates and strengthens existing hair while reducing baldness.
- ✓ PRP can be done on hair transplants to improve results.
- ✓ Alternative treatments and medicines for hair loss can be used in conjunction with PRP to enhance the efficacy of each therapy or medication.

## How Many Treatments Are Required?

You'll need three to four treatments spread out every four to six weeks. We recommend a booster treatment every three to six months to maintain the outcomes. Although each patient's response is unique, improvement in hair growth should be measurable within 90 days, with continued improvement for at least six months. It is recommended that you attend all appointments.

You can combine the treatment with Viviscal professional hair growth supplement that supports health growth from within for optimal results. More information is available at your consultation.

Treatments are carried out by GMC Registered Doctors, NMC Registered Nurses & Senior Therapist.  
Prices vary according to delivery method – see website for more details or speak to your clinician in clinic.

# Anti Wrinkle Injections

Anti-Wrinkle Injectables are a popular cosmetic treatment that uses injections to relax the muscles around the injected region and reduce wrinkles. The injections work by blocking messages between the nervous system and muscles, preventing them from contracting. This can assist to soften lines and give your face a more relaxed and youthful appearance. The injections can also alleviate wrinkles and neck spasms, excessive sweating, and chronic headaches. With so many advantages, it's no surprise that this treatment is one of the most popular cosmetic treatments available today.

# Dermal fillers

As we grow older, our youthful features tend to lessen in prominence. Cheeks might lose volume, and lips may thin. Dermal fillers are a non-surgical technique for restoring fullness to your cheeks and lips that will make you look more rejuvenated.

Dermal fillers are injected into the target area, adding volume and creating a smoother, youthful look. The results are immediate, and there is minimal downtime or recovery period required.

DERMAL FILLERS	PRICE
Consultation Fee	£50

# Profhilo®

## What is Profhilo® ?

The first of its kind, Profhilo® is a revolutionary 'beneath the skin' hyaluronic acid moisturising treatment, made with the patented NAHYCO® technology. This results in a unique hyaluronic acid injectable gel, which has a prolonged stimulating activity on the dermal cells. When injected into skin, Profhilo® stimulates the skin cell receptors to counteract skin laxity and improve and restore firmness of the skin.

One of the highest concentrations of hyaluronic acid on the market, Profhilo® not only boosts and hydrates the skin, but also remodels ageing and sagging tissue. The most common areas of treatment include the face and neck and can also be used for the décolletage, hands, arms, knees and abdomen area where it would effectively treat skin laxity. The treatment is suitable for men and women as well as offering skin benefits for patients of all ages.

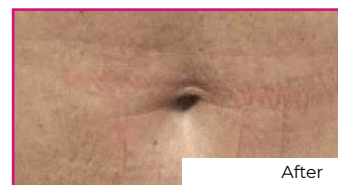

# Profhilo®

## How Does Profhilo® Work?

Ultra-pure hyaluronic acid is precisely injected into the area being treated. Unlike wrinkle reducing and dermal filler treatments, Profhilo® stimulates collagen and elastin, attracting water in the deeper layers of the skin.

As a stabilised product, the activity on dermal cells will last longer than that of a non-stabilised gel. During this time the stimulation of four different types of collagen and elastin takes place by slow release of hyaluronic acid.

The stimulation results in significant tissue improvement. Therefore we cannot say that Profhilo® is a skin booster as it also has a significant tightening / lifting effect on the tissue.

TREATMENT	PER TREATMENT	2 TREATMENTS Most popular	4 TREATMENTS
Consultation Fee	£25		
Profhilo Face	£450	£697	£1,250
Profhilo Neck	£450	£697	£1,250
Profhilo Hands	£900	£1,394	£2,500

Consultation fee is redeemable against treatment otherwise non refundable

# Sunekos

## What Is Sunekos?

Sunekos is a non-surgical injectable skin treatment, which includes two essential ingredients Hyaluronic Acid and Amino Acids. These two ingredients will stimulate collagen and elastin fibres, enabling cellular matrix regeneration (ECM). The treatment will improve facial volume loss, reduce wrinkles , reduce undereye dark circles and hydrate the skin.

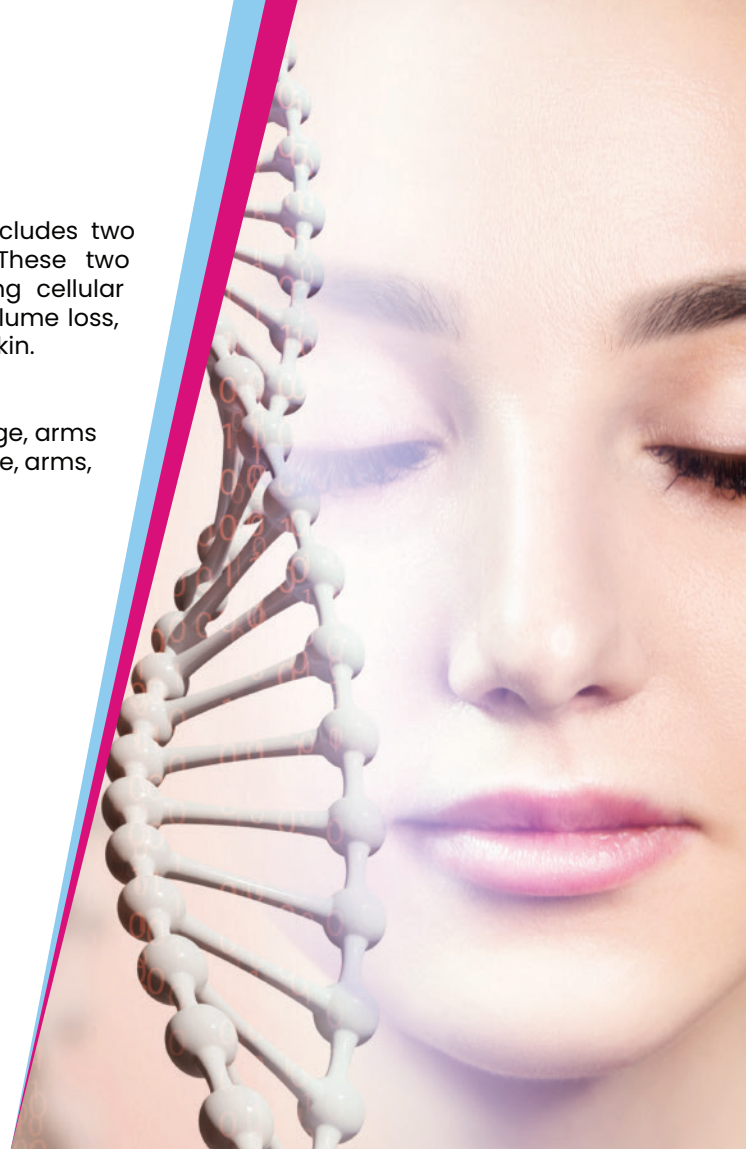

## What Can Sunekos Treat?

Sunekos is suitable to treat the neck, face, dark circles, décolletage, arms and hands. Sunekos can also be used on the body to treat cellulite, arms, inner thigh, knees and abdomen.

otherwise non refundable

# Recommendation

Anti-wrinkle injections can help smooth out frown lines, wrinkles and crow's feet lines around the eyes. The injections will relax the muscles, which will help reduce the appearance of wrinkles. Results usually last for 3-4 months.

Dermal fillers can help you look younger. You can choose to get them for volume, contouring, or to reduce wrinkles. The results usually last 6-18 months.

If you are looking for a more natural way to improve the look of your skin, we recommend Profhilo treatment with a combination of Sunekos and PRP.

PRP can help improve the look and feel of your skin by making it smoother, more even-toned, and tighter.

Many of our clients use a combination of treatments to meet their specific skin care needs.

# **SKIN BLEMISH REMOVAL**

# Skin Blemishes

Skin blemishes can result from many things:- lifestyle habits, ageing, sun exposure, and causes of skin infection via the human papillomavirus (HPV). The most common skin blemishes that people experience are skin tags, age spots, moles and blood spots.

## **What Treatment Does Colaz Offer For Skin Blemish Removal?**

We use the Advance Electrolysis technique at CoLaz for skin blemish removal. Electrolysis has been used to treat such issues as broken capillaries, spider naevi, and warts for more than a century. The continual improvement of cutting-edge technology has advanced considerably and is a straightforward and safe procedure.

## **How Does It Work?**

Electrolysis is a non-surgical and non-invasive treatment procedure that uses a Thermolysis or Blend current alongside a very fine, tiny needle that cauterizes or lifts away from the blemish.

# OTHER TREATMENTS

# Microblading

Semi-permanent eyebrows or eyebrow blading is a popular trend in the world of beauty and cosmetics. This cutting-edge technique involves using a special microblading technique to create the look and feel of real, individual hairs.

Our expert uses delicate strokes to create the natural shape and definition of your eyebrows. This helps you achieve a more defined, beautiful look that can last for up to 2 years depending on your skin type.

TREATMENT	PRICE
Microblading	£350
Follow Up Treatment After 12 months	£199

Only available at Reading, Derby & Southall

# Vaginal Tightening

Many women experience a loss of elasticity in the vaginal area as they age, which can lead to a host of problems, including incontinence, decreased sensation during intercourse, and an overall loss of confidence.

Vaginal rejuvenation is a minimally invasive procedure that can help to address these issues, as well as provide a brand-new boost to your confidence. The vaginal tightening handle utilises ultrasound technology to deliver optimal results and is an excellent option for women of all ages who are concerned about their feminine health.

Treatment	PRICE
Vaginal Tightening x 3 Treatments	£99
Follow Up Treatment	£395

Only available at Reading & Derby

# Boost Your Immunity, Energy And Wellbeing With IV Vitamin Drips - **Infusion Therapy**

When it comes to getting the vitamins and minerals that our bodies need, nothing beats the efficiency of IV vitamin therapy. By infusing these vital nutrients directly into the bloodstream, this treatment allows them to reach our cells quickly and easily, giving us a much-needed boost of energy and immune support.

Whether we are fighting off fatigue and stress or dealing with chronic inflammation and other conditions that compromise our wellbeing, IV vitamin therapy is an incredibly effective way to get back on track.

Only available at limited clinics
